

TEXAS 3 PIECE PAVER

TEXAS 3 PIECE PAVERS

Give your project a refined yet old world look. Our **Texas 3 Piece** is available in 4,000 PSI and 8,000 PSI formulas for demanding applications: or budget minded projects.

The 3 piece allows the installer more flexibility and creativity on the project. The Texas 3 Piece will compliment any other 60 mm paver we make such as the 12" x 12" Slab or Holland Stone. Available in three color blends or solid colors, these pavers are in the same color family as our Split Face Block, so Architects can specify the pavers with confidence of a color match throughout the project.

Call our installation experts early to help plan your next project!

Installation Instructions available on our website!

Texas 3 Piece Pavers are manufactured right here in the Rio Grande Valley.

iB INNOVATIVE BLOCK

The Innovative Block Texas 3 Piece are made with pride on advanced machinery for the highest strength pavers possible.

For less demanding applications like sidewalks and pool decks, our 4000 PSI pavers are a great cost conscious alternative. These mid-strength pavers also work well when covering ugly concrete drives.

Our 10 Earth Tone colors were designed to blend effortlessly so paver colors can be mixed and matched.

In areas with freeze/thaw cycles our 8,000 PSI pavers have very low absorption characteristics for decades of strength and beauty.

We stock most colors for immediate delivery.

Sample Boxes Available on request.
