

ARCHITECTURAL BLOCK

SPLIT & SMOOTH FACE COLORED BLOCKS

The state-of-the-art production facility is located in the middle of the Rio Grande Valley. All Architects can specify Innovative Block split face products, for interior or exterior applications, with confidence that their job will be on time and will exceed expectations.

Innovative Block offers nine beautiful colors ranging from deep chocolates to rich creams. Our earth tone color selection has been carefully designed to compliment each other to give that rich look desired by the modern Architect. Our smooth face and split face products are color coordinated to allow for confident blending or contrasting within the same wall.

We use only the finest concrete additives to provide the best available efflorescence control for a lifetime of beauty.

Made in the Rio Grande Valley.

SPLIT FACE

- Lifetime maintenance free
- Permanent color throughout block
- Highest quality efflorescence additives
- Thermal-mass for energy efficiency
- Acoustic dampening
- Normal weight block for shrinkage control

SMOOTH FACE

- Same concrete mix design for color match

PRODUCTION LOTS

- High capacity machine allows for "One Lot Manufacturing Philosophy" for best color match possible.
- High-tech equipment provides even aggregate distribution for high quality results.

MORTAR COLOR MATCHING

We provide pre-blended mortar color bags for the mason. This assists with mortar color matching or contrast for any colored wall.

LOCAL AGGREGATES

Innovative Block uses only the best local aggregates. Many Architects specify local aggregates to support sustainability and generate LEED credits.

COLOR PERMANENCE

The finest iron oxide pigments are utilized in the manufacturing of our blocks. The result is a lifetime maintenance free product with permanent color.

WALLS TO FLOORING

Our split-face colors are designed to compliment our pavers and smooth face colors.
