

HOLLAND STONE PAVER

HOLLAND STONE PAVER

INNOVATIVE BLOCK's Holland Stone Pavers are timeless in their elegance and simplicity. It is the classic rectangular paver shape with enormous strength, beauty and versatility in its options for design.

Holland Stone Pavers bring an authentic European, Old World look that gives any property an elegant traditional treatment! Always stylish and attractive, Holland Stone Pavers are available in 16 earthtone colors, which makes it possible to take this elegant, simple paver shape and transform it into stunningly intricate designs.

These dry cast pavers have super-high compressive strength (8000 PSI) and meet or exceed ASTM ratings. This strength, added to inherent design flexibility and a variety of finishes, allows INNOVATIVE BLOCK's Holland Stone Pavers to set the new standard for a classic, simple material! And now available we have 4,000 PSI strength for walkway and less critical applications.

Holland Stone Pavers are manufactured right here in the Rio Grande Valley.

IB INNOVATIVE BLOCK

Our HOLLAND STONE PAVERS are manufactured by combining highly technical processing equipment with the highest quality aggregates available. The resulting 8,000 PSI, high strength pavers exceed all ASTM and TX-DOT requirements.

Our 10 Earth-Tone colors were specifically designed to blend with each other effortlessly. Our colors are permeated throughout the product eliminating surface wear concerns. We provide both solid color tones and color blends to fit most every need.

Our state-of-the-art molds form blind spacers on the paver sides to ensure exact spacing and allow for gravel wedging during compaction. Our molds and process controls also ensure a consistent height resulting in perfectly level installations. In addition, we use the best available efflorescence control chemicals to reduce and eliminate the white powder build-up on the paver surface.

Our Holland Stone pavers are available in both 60MM and 80 MM heights. Our contractors can select the proper thickness of the paver for the exact weight load requirements. We stock and maintain our paver colors right here in the Rio Grande Valley. Large commercial projects can be supported with our high volume production output.

TECHNICAL SPECIFICATIONS

Size: (7 3/4 x 3 7/8 X 60mm)

Estimated Weight: 5.4 lbs

1 pallet = 480 pcs = 103 sq. ft. (2,600 lbs)
