## SAND & AGGREGATES

To fulfill the INNOVATIVE BLOCK mission of responsiveness to our customers, we have developed a range of aggregate products according to what our clients have told us they needed.

**INNOVATIVE BLOCK** now offers a variety of quality sands, ready mix, aggregates, and concrete mixes. Packaged and delivered in two sturdy bag sizes: ½ Ton & One Ton bags.

**ONE-TON-BAG DELIVERY SYSTEM** Ensures a measured quantity on every delivery. The One-Ton-Bag provides the ability to receive block, sand, and aggregates on the same delivery. Use the One-Ton-Bag to protect materials to the next job site using the convenient forklift loops provided.

**QUALITY GUARANTEE** All of our aggregates are the highest quality available, pre-washed, and consistent size gradation. Every product is supported by ASTM certifications.

INNOVATIVE BLOCK now offers a variety of quality sand. **All product is delivered in convenient, no waste, 1 ton or ½ ton returnable bag with forklift loops. The bags are ideal for job site trash removal.**

**MASONRY SAND** Our professional grade masonry sand is ideal for all residential and commercial construction projects. The consistent grain size combined with multiple washes provides a high quality sand resulting in smooth and consistent mortar joints with superior strength. Our professionals demand this quality sand and so should you.

**SANDS, GRAVELS AND AGGREGATES** Let us provide your choice of concrete sands, gravels, and pre-mix blends. The aggregates are an ideal solution for all construction needs. The customer chooses between individual sands and gravels or pre-mix blends for job-site ease. All commonly used aggregates are maintained in stock to provide job site efficiencies. Grout block, small concrete jobs, compacted base, all can be supported with high quality aggregates delivered in One-Ton-Bags.

### **Fine Masonry Sand**

Highest quality mortar sand washed multiple times. Consistent fine granule size.

### **Concrete Sand**

Excellent sand for mixing with gravel to make high strength concrete.

### **3/8" Gravel**

Suitable for multiple concrete applications.

### **3/8" Pre-Mixed Sand**

This premixed combination of concrete sand and 3/8 gravel is designed to make a high strength concrete for grouting block.

### **1" Pre-Mixed Aggregate**

This premixed combination of concrete sand and gravel up to 1" is designed for all concrete mix applications.

### **High Grade Caliche**

High quality caliche for compacting as road base or paver base. Gradation from 2" to fine.
